The Society of Earth Scientists (SES) has been constituted during the International Year of Planet Earth, 2008 and registered as not-for-profit organization under the Societies Act in April, 2008. The SES was constituted with three fundamental objectives:

1. To provide a single platform for all earth scientists irrespective of the discipline and Organizational boundaries to interact, communicate and share the information, achievements and result of the research with their fellow scientists across the Globe.
2. To promote interaction among scientific bodies, institutions (private and/or state-owned) engaged in the work related to earth and environmental sciences and Government for the larger interest of earth science community.
3. To bring benefits of earth science researches to the society.
