EDITORIAL

Ensuring Water for Water-stressed Ecosystems

Venkatesh Dutta

6

GROUNDWORK

Isotopic investigation of the hydrological cycle in northeast India

Supriyo Chakraborty

11

MEET & GREET

“There is nothing like a 'groundwater surplus' scenario... groundwater management in India must be enabled at highly decentralised scales of operation”

Dr. Himanshu Kulkarni in conversation with Venkatesh Dutta

14

ESSAY

Laws and Judicial response: protecting the water ecosystem with emphasis on water scarcity and rivers

Priya Sondhi and Anoop Kumar

18

PERSPECTIVE

Siruthuli- a drop that cares!

Vanitha Mohan

22

SYNTHESIS

How increasing pollution in freshwater lakes is posing risk to native plant species causing shift in their diversity

Divya Dubey

27

INBOX

Hot springs and Ecosystem

Sandeep Hemilton

30

EVENTS

Release of quarterly magazine Land, Water & People and Geoheritage website

Hulaskhera wetlands to be ecologically restored and developed as community reserve
