LAND, WATER & PEOPLE

Connecting People-Policy-Practice for Prosperity

Year of Initiation: 2022

ISSN No. (Online): 2583-3227

About the Magazine

The Quarterly magazine "Land, Water & People" has been launched to facilitate trans-disciplinary communication and exchange of ideas on issues related to the land and water resources, their use, and community management by people. There is an urgent need to bridge the gap between researchers, professionals and communities in physical and natural sciences. Many concerns are also transnational in character and relate to natural resource management, and state rights; as a result, it is critical to examine them at all spatial levels in order to reach fair and enforceable solutions that protect both land and water resources. LWP serves as a forum for analysing and debating all elements of land, water, environment, and the society. It encourages contributions in the areas of scientific research integration, synthesis, assessment, solutions, and technological innovations in support of conservation of land and water resources in order to maximise the economic and social benefits, paving the way for long-term sustainable development. LWP transcends strict disciplinary borders and will appeal to academics, politicians, businessmen, and indeed everyone with an interest in the planet's and people's prosperity.

Editorial Board

Editor-in-chief:

Prof. Venkatesh Dutta

School of Earth and Environmental Sciences,
Baba Saheb Bhimrao Ambedkar University,
Lucknow – 226 025 (UP) India
Email: venkateshd@bbau.ac.in; dvenks@gmail.com

Editor:

Dr. Atreyee Bhattacharya

Center for Asian Studies
University of Colorado Boulder,
Boulder, Colorado, USA
Email: atreyee.bhattacharya@colorado.edu

Editorial Advisors:

Mr. Sandeep Hamilton

Former Additional Director,
AMD, Department of Atomic Energy,
Hyderabad, India
Email: sandeephamilton7@gmail.com

Associate Editor:

Dr. Akash Sondhi

I-Hub Foundation for Cobotics,
TIH-IIT Delhi, New Delhi, India
